Management Objectives:									
-Provide for emergency personnel and public safety at all times.									
-Protect property, improvements, and infrastructure.									
-Ensure repopulation takes place in a quick, efficient, and effective i	manner.								
-Ensure coordinated, timely and accurate release of public informati	ion.								
-Foster and maintain relationships with all cooperators and stakehol	lders.								
-Protect economic, natural, cultural and heritage resources.									
-Maintain fiscal accountability and keep costs commensurate with v	alues at r	risk.							
Control Objectives:									
Division A - McCourtney incident:									
-Keep the fire within the established perimeter									
Branch II - Lobo Incident:									
-Keep the fire North of Rough and Ready Highway									
-Keep the fire South of Bitney Springs Road									
-Keep the fire East of Lake Wildwood Estates									
-Keep the fire West of the intersection of Bitney Springs Road and I	Newtown	Road							
Branch V - Cascade Incident:									
-Keep the fire North of Fruitland Road									
-Keep the fire South of Rocky Huncut Creek									
-Keep the fire East of Loma Rica Road and Iowa City									
-Keep the fire West of Marysville Road									
Branch VII - LaPorte Incident:									
-Keep the fire North of Fruitland Road									
-Keep the fire South of Rocky Huncut Creek									
-Keep the fire East of Robinson Mill Road									
-Keep the fire West of Dunston Road									
General Situational Awareness:

OUTPUTS

FIRE BEHAVIOR

GENERAL: The fires are burning in a mix of grass and brush with stands of timber and timber litter that are extremely dry and have a heavy fuel loading. The fire spread was initially driven by high winds and low humidity with long range spotting. Group tree torching could cast embers and produce spot fires in receptive fuel beds, especially where timber litter fuel loading or heavy grass crops are high. Wind speeds are expected to significantly decrease from the previous day which will lead to lower rates of spread and lower spotting distances.

Probability of Ignition: 87% 100 HRFM: Near 90th Percentile

FDFM: 3% LAL: 1

ERC: 64 (77 90th Percentile) 1000 HRFM: Near 90th Percentile

SPECIFIC: Rates of Spread are in feet/minute

Rate of Spread: Grass: Head Fire: 26-111 ft/min,

Flanking Fire: 4-18 ft/min, Flanking Fire 6-14 ft/min,

Backing Fire: 2-9 ft/min Backing Fire: 3-8 ft/min

Timber Litter: 6-10 ft/min,

Brush: Head Fire: 44-88 ft/min,

Flanking Fire: 1-2 ft/min,

Backing Fire: >1 ft/min

Flame Length- Grass: Head Fire 5-14 ft,

Flanking Fire: 2-6 ft,

- Don't become complacent! Identify your safety zones and escape routes.

WIND COMPLEX SAFETY MESSAGE

Maintain Situational Awareness

INCIDENT: Wind Complex CA-NEU-026295 DATE: October 10, 2017 TIME: 0700-0700

Major Hazards and Risks: Extreme fire behavior, Windy dry weather, Limited resources, Hazard trees.

Fatigue: Hot weather for the next several days, be alert for signs of fatigue and take breaks as necessary. Be alert for signs of heat stress in yourself and others.

Fire Behavior: Fuels are receptive to fire spread. A small amount of wind on this dry fuel changes fire behavior dramatically!! Be alert to changes in wind direction and expect changes in fire behavior.

Hazard trees: Survey your work areas for hazard trees, flag and restrict access, use only qualified personnel for tree felling. Dead trees from bug kill. Review and follow **Hazard Tree Safety**, pg. 22-23 in your IRPG.

Steep slopes/rolling material: Watch your footing while hiking in steep terrain. Be careful of loose rolling debris. Maintain Situational Awareness.

Personnel: Manage yourself and those around you for fatigue. Drink fluids frequently and eat nutritious food regularly. As fatigue increases, injuries tend to increase also. Keep an eye on your crew and partner. Stay engaged and make smart decisions.

Driving: Slow Down! Drive defensively. Expect the unexpected around every curve. Drive with headlights and seatbelts on. Coordinate your movements on one-lane roads.

Downed powerlines: Follow power line safety guidelines (IRPG pg.24), watch out for burned out power poles.

Review your ICS 206 and know what to do in the event of an (IWI).

Lookouts, Communication, Escape routes, Safety zones

Tailgate Safety

- Accountability: everyone checks in and everyone checks out. Supervisors know where their crews are at all times
- Communication: everyone knows the com-plan
- Briefing: everyone knows the plan and the contingency plan
- Safety gear: everyone has the appropriate safety gear in good working condition
- LCES: they are clear and made known to everyone

Fatigue Management:

- Drink plenty of fluids:
 - Water and Gatorade
- Avoid drinking energy drinks
- Rest when you can
- Find shade when you can
- Eat nutritious food regularly
- Work within your abilities.

WIND COMPLEX PUBLIC INFORMATION

Incident Information Line: 503-823-4083

Media Line: 916-203-4153

MEDIA

California State Penal Code Section 409.5(d) allows the news media to enter scenes of disaster, riot, or civil disturbance. Properly identified members of the news media should not be restricted from entering the locations specified within the code, even if the area presents a danger to them. Media members should be advised of the nature of possible danger. Members of the media do not have the right to access crime scenes or any area where their presence may interfere with incident operations, mitigation or evidence collection.

- The media may only access private property with the property owner's permission. Fire
 personnel cannot provide members of the media with authorization to enter private
 property.
- If approached and questioned by the media and/or the public, talk about your assignment or task at hand. If need be, direct the questioning party to the incident PIO.
- Do not speculate or give opinions
- There is no such thing as an "off the record" comment.

CAL FIRE SOCIAL MEDIA POLICY (Social Media 0691)

Social Media is increasingly being used by public agencies and the media as well as the public. This form of communication continues to grow rapidly in order to supply the public's desire for instant information gratification. All personnel assigned to a CAL FIRE incident will adhere to the CAL FIRE Social Media Policy. Further information about the CAL FIRE Social Media Policy can be obtained from the Information Officer. If you are uncertain, please ask. **Do not post**:

- Inappropriate information, pictures or videos
- Opinions regarding the incident or policy
- Endorsements of any kind

PICTURES AND VIDEO OF INCIDENT

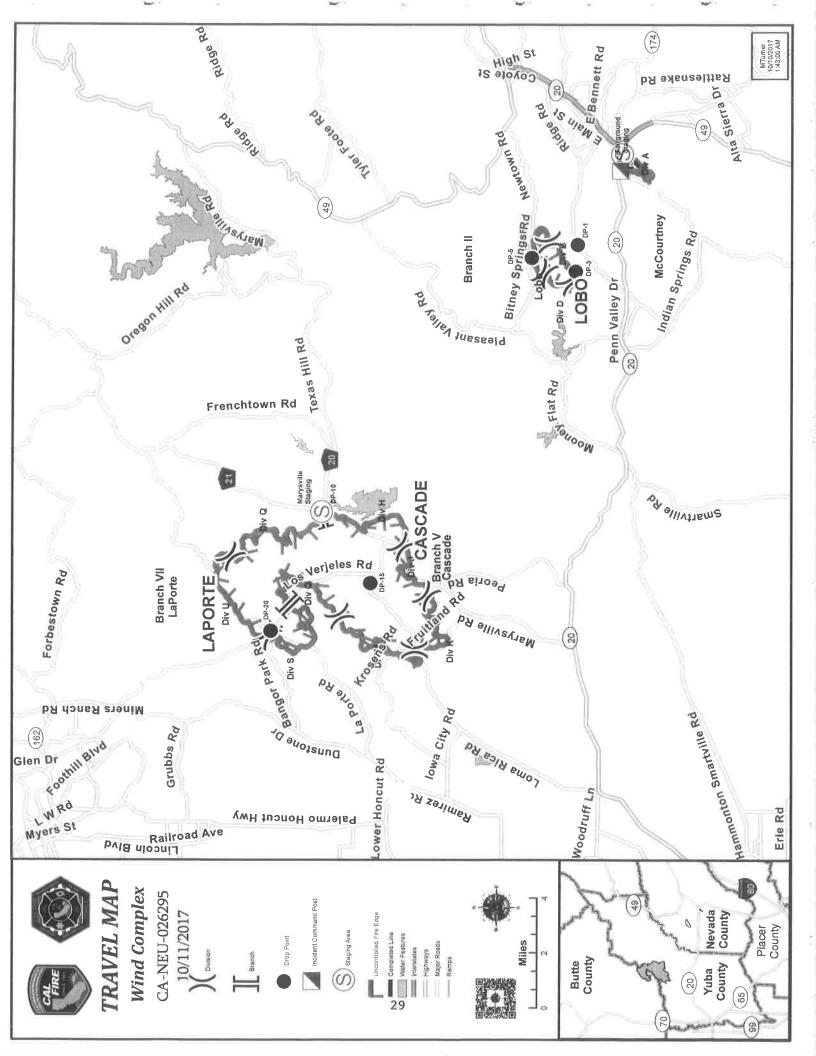

We are in a new era of media. Media no longer means the news/broadcast industry but now refers to anyone that has the capability to shoot video and or photographs and post them onto social media in a matter of minutes. Unfortunately we have seen some instances of video or photographs that have depicted unsafe, unprofessional or embarrassing circumstances which are a serious breach of ethics. When this happens it reflects poorly on all that are attached to this incident. Posting an inappropriate video, photo or blog comment could have unwanted effects. It may be unsafe to shoot photos or video and a firefighter who is concentrating on a camera can't be looking up, down and all around.

LOST AND FOUND

The Information staff will manage *Lost and Found* items for the incident. If you have lost an item, leave your contact information and what you have lost at the Information trailer. If you have found an item on the incident, bring the item to the Information trailer.

MAIL SERVICE

The Information staff will assist you in mailing and receiving letters and packages.
